

'No Wrap', Christmas Rap

I'm no
rapper so this
rap may not rhyme.

I want to talk about
wrapping and how
sometimes it's a crime.

I used to purchase wrapping,
mostly decorative bags.

I confess I killed some trees and
for this I apologize.

Then I started collecting the gift bags that my
sister gave to me.

I used them when I next gifted a friend or family.

Now as an evolved Eco -Artist, I seek to create in sync
with Nature.

I am a Recycling Wrapper – creating Art with used ribbon, fabric
and paper.

My creations are esthetically pleasing and I retrieve it when it's done.

This way the parts never reach the landfill and I get to have more fun.

This year I have a new plan – I'll use this Rap and deliver it personally.

I will Rap it out loud as I hand out my gifts and keep it paper free.

Merry Christmas
Keep it Green
