### **Painting – Workshop:**

#### **Skip Drawing, Go Straight to Painting**

Age: 16yrs and up. You may already know that the old Masters basically utilized a 4-step painting plan, and that drawing the composition was usually step one. But when the tube of paint was invented in 1841, a door was opened that led to new styles and methods of painting, such as impressionism, expressionism, colorfield painting and more. In this one-day workshop, we start the day with a selected slide-show presentation, then move onto our warm up exercises that employ some fearless painting application methods...no drawing allowed here! This intuitive process may create both painted beauties, as well as mistakes and blunders; of course we will attempt to end with those 'beauties', but it is with the 'mistakes and blunders' where we can grow the most. You are free to paint...not make a painting! Previous painting experience is required; oils, acrylics, and watercolors are welcome. Demos will be made in oils. Supply list available on Sertoma's webpage.

### **Painting – Workshop:**

#### **Take the Color Challenge**

Age: 16yrs and up. There is a lot of room in modern painting for color exploration, and this one-day workshop will trek down that adventurous path. We start off the morning with a slide show presentation, then move on to some non-conventional warm-up painting exercises. After the lunch break, we begin painting our already prepped compositions, with special attention given to the use of color placement, temperatures as they relate to each other, intensity of color, and the use of color compliments. The instructor will provide the subject matter, or you may bring in your own photographs
