

SERTOMA ARTS CENTER – SUMMER 2014

DISCOVER YOUR CREATIVE SIDE

Workshops

Drawing - Workshop: Oil Painting & Drawing - The Portrait

In this two day workshop we will be drawing and painting the portrait from life. Our drawings will be a 'tool' that we will use to complete the painting. We will use short gesture and longer poses to understand our subjects. After several drawing studies, we will turn our focus to the values of the head. This is an extremely helpful step when translating color into values. Starting with easy foundation color recipes and working in our shades, middle tones and highlights, this workshop will also utilize many application techniques to establish the essence and personality of our subjects. Live models will pose as the instructor guides you with several demonstrations, resource materials and one on one critiques. This is an advanced workshop and the students should bring their own supplies. Demos will be done in graphite, charcoal, and oil paints. Supply list available on Sertoma's home page. Leslie Pruneau instructs.

SERTOMA ARTS CENTER – SUMMER 2014

Pottery - Workshop: Enhancing Your Handbuilding Skills

Age: 16yrs and up. It's time to hone your handbuilding skills! In this 2 day hands on workshop, we will discuss developing quality work and finding your voice in clay. Demonstrations include new approaches to forming unique and decisive functional pots. Using slabs, coils, and basic handbuilt elements, we will establish practices for properly using molds, design templates and stamps to expand your range of form and surface. Learn how to punctuate your work with lids that fit, feet, nice handles, and clean design. On the second day, we will concentrate on finishing your work with techniques that include different ways of using slips and stains to decorate greenware, and successfully apply glazes. Prerequisite: Beginner handbuilding at Pullen or Sertoma. Bring lunch and any basic handbuilding tools you have. Clay can be purchased at the first class. Slips provided. Jennifer Stas instructs.

Course Fee: \$80
