Stormwater Management Advisory Commission

**Sub-Committee Meeting #3 for Input and Guidance to Integrated Stormwater Project
Prioritization Model Development**

Wednesday, June 18, 2015
3:00 pm – 5:00 pm

Stormwater Conference Room, 8th Floor
Professional Building, 127 West Hargett Street

3:00 **Welcome, Introductions**

3:05 **Public Input Update**

Scott Bryant – Stormwater Strategic Planning

The City has requested general public input/comments to the prioritization model development process. The public comment period closes today (June 18). Staff will provide a brief update for the Sub-Committee.

3:15 **Project Prioritization Model Development – Complete Review of Working Draft Model**

Scott Bryant – Stormwater Strategic Planning

Building upon the input and feedback from Sub-Committee Meetings #1 and #2, it is anticipated that Meeting #3 will complete the initial phase of Sub-Committee work in support and guidance of the Staff team leading into the July 9th meeting with the full SMAC. Goals for Meeting #3 are:

- Review and discuss the results of the initial criteria weighting exercises performed by both the SMAC Sub-Committee and Staff teams
- Recommend a set of main integrated prioritization criteria for the model
- Discuss which of the criteria, if any, may be deemed as providing “benefits” and thereby potentially eligible to be utilized for a “benefit scoring” in addition to the overall project scoring
- Receive any additional Sub-Committee comments/guidance to help the Staff team leading into the July 9th SMAC meeting.

5:00 **Adjourn**
