The CORPUD provides water and sanitary sewer service to approximately 183,000 metered water and sewer customers and a service population of approximately 500,000 people in Raleigh, Garner, Wake Forest, Rolesville, Knightdale, Wendell, and Zebulon areas. The Cross Connection Program maintains fire and domestic containment backflow records for approximately 16,500 commercial customers as well as approximately 10,000 records for residential irrigation containment backflows.

OBJECTIVE:
The City of Raleigh Public Utilities Department (CORPUD) is considering the option to contract administrative services for the Cross Connection Program. The proposer shall provide all labor, materials and equipment necessary to perform the work required for notification of containment backflow assembly testing. The proposer shall also provide all labor, materials, and equipment necessary for an online notification, tracking and data management system that maintains customer, backflow, and Certified Tester’s information. This procurement is being conducted in accordance with the provisions of North Carolina General Statute § 143-129.8.
