RE: Public Meeting for the I-40 Bridges Pedestrian Retrofits Improvements

Dear Property Owner:

The City of Raleigh is proposing pedestrian improvements along the Buck Jones Road, Avent Ferry Road and Rock Quarry Road bridges. The improvements include adding and extending sidewalks and making additional roadway improvements to accommodate proposed continuous sidewalk connections along the north and south sides of the bridges (a project limit map is provided on the reverse).

The City of Raleigh and our engineering design consultant, Wetherill Engineering have received as well as considered comments from staff review and would like to receive comments from the public. To show you the initial design and how it may impact property you own, and to receive further comments, we have scheduled a public meeting for Thursday, June 26, 2014 at Carolina Pines Park Community Center, 2305 Lake Wheeler Road, Raleigh NC 27613 (a location map is included). We will be available from 6:00 P.M to 7:00 P.M. to receive your input.

The meeting will consist of a "workshop" environment with representatives of the City available for one-on-one discussions. There will be mapping available showing the proposed improvements and adjacent development for reference. Individuals with hearing impairments needing interpreter services should provide 48-hour notice by calling (919) 996-3100 (voice) or (919) 996-3107 (TDD).

Should you have any questions regarding this notice, please contact Project Manager Sylvester Percival at (919) 996-3030 or by email at [sylvester.percival@raleighnc.gov](mailto:sylvester.percival@raleighnc.gov). We look forward to seeing you at the meeting.

Sincerely,

Sylvester Percival, E.I.  
Project Engineer II
