**Supplemental Update on City's Brentwood Today Wetland
Analysis and Stabilization Project Request For Proposals**

The City of Raleigh Stormwater Management Division requested and received proposals from consulting engineering firms to provide professional services for the Brentwood Today Wetland Analysis and Stabilization Project. Based upon staff's review of the submitted proposals, interviews were conducted with three engineering firms:

- Kimley-Horn
- HDR Engineering, Inc.
- Moffat & Nichol

Staff has selected **HDR Engineering, Inc.**, at this time to negotiate scope of services and draft contract negotiations. Should the City's negotiation with HDR Engineering, Inc. prove unsuccessful, then the City will attempt to negotiate a contract with Moffat & Nichol, followed by Kimley-Horn, in this order. The recommended firm and draft contract will be forwarded to the City Council for official consideration and award during an April 2015 City Council Meeting.

Brentwood Today Wetland and Stabilization Project
Request for Proposals Supplemental Update

Page 2

The City again extends its appreciation to the many firms who responded to this request. **City staff will not be accepting requests for individual post-proposal debriefings.** Information regarding the project, results of the project engineering consultant selection process, and contact information can be found on the City's website at www.raleighnc.gov , and searching for "Brentwood Today".

Thank you for your interest in working with the City of Raleigh.

Regards,

Blair Hinkle, P.E.

Stormwater Program Manager
