

Upper Neuse Greenway

The Capital Area Greenway Master Plan was first adopted by City Council in 1976 and includes over 270 miles of stream corridors identified for protection and the development of a greenway trail. Fifty-six miles of greenway trails have been constructed.

The 2003 Park Bond Referendum included funding for the design and initial construction of the Upper Neuse Greenway. This portion of the greenway system begins at Falls Dam and runs along the Neuse River for approximately eight miles, ending at the WRAL Soccer Complex off Perry Creek Road. City Council has authorized funding in the amount of \$1.495 million. The first phase of construction will be from Falls Dam to the connection with the Falls River neighborhood.

A Public Meeting will be held on March 21st from 7:00 – 9:00 PM at Durant Road Middle School to present the project alignment, schedule and solicit input from the community about the project.
