HYWT	Hydrant Meter Water (Outside)	4.86per ccf (748 gallons)

Meters will be read in hundred gallons, but readings and consumption will be represented by a number with the last 2 digits dropped, such as 5 instead of 500 gallons.

When calculated during the billing process, the result will be 5 (500 gal.) X .13369 (Conversion Factor) = .66845 (ccf).

The ccf figure will be multiplied X the Water and Sewer Rates and displayed on the bill.
