GoRaleigh is remodeling their GoRaleigh Transit Station information booth and bus bay platforms. As part of this project, GoRaleigh wishes to replace their existing dynamic signage with new LCD-based monitors, providing information to waiting passengers in various forms (including split screen technology) to display information such as the following:

- Text-based real-time departure predictions using existing CAD/AVL data
- Graphical display of vehicle locations as they approach the Moore Square bays
- Informational messages
- Current time and temperature
- Weather forecasts
- Local news
- Picture and video-based information/advertising.

The work performed under this contract will be financed, in part, by grants provided under programs of the Federal Transit Administration. Citations to federal law, regulation, and guidance references include, but are not limited to, the Master Agreement, FTA MA (19), dated October 1, 2012; FTA Circular 4220.1F, dated November 1, 2008; "Best Practices Procurement Manual", updated March 13, 1999 with revisions through October 2005; 49 CFR Part 18 (State and Local Governments) and 49 CFR Part 19 (Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations) and any subsequent amendments or revisions thereto. See section 5 for full details on federal procurement requirements.
