## **REQUEST FOR QUALIFICATIONS**

The City of Raleigh Public Utilities Department (CORPUD) requests qualifications for professional consultant engineering services for design and permitting of the **Neuse River East Parallel Interceptors (NREPI) Phase III and Phase IV** to eliminate surcharging, overflows during peak wet weather, and provide for future growth flows.

The purpose of this project is to install large diameter sewer interceptors beginning at the proposed East Neuse Regional Pump Station (ENRPS) along the east side of the Neuse River to make connections upstream of the Walnut Creek Lift Station off Barwell Rd. and the Neuse River Pump Station at Anderson Point Park. The NREPI Phase III will begin on the north side of Neuse River paralleling the river with approximately 19,825 LF of 96-inch diameter pipe to just above Poole Rd. crossing the river and making connections to the existing parallel 66-inch interceptors. The NREPI Phase IV will continue from the Poole Rd. crossing on the east side of the river with approximately 5,900 LF of 84-inch diameter pipe upstream to the Neuse River Pump Station at Anderson Point Park making a connection here that will allow for the decommissioning of the pump station.

A copy of the full Request for Qualifications (RFQ) document is available by contacting Dennis Lassiter at [Dennis.Lassiter@raleighnc.gov](mailto:Dennis.Lassiter@raleighnc.gov), 919-996-3477.

### **Submission Deadline:**

Submit five (5) hard copies of the proposal and one USB flash drive containing a PDF of the proposal by **5:00 p.m. on Friday October 7, 2016** in the CORPUD Office (Suite 620, One Exchange Plaza, Raleigh, North Carolina 27601) in order to be considered for this project.

A Pre-Proposal meeting will be held **September 19, 2016 at 1:00 p.m. at One Exchange Plaza, 6h Floor, Conference Room 1**. Information for the project will be distributed via email. Individual meetings will not be held due to personnel workload.
