

Event Spaces

A key component of the Master Plan is the creation of flexible, central lawns that can be used for a variety of events and performances. What types of events would you like to see in the space? How should the space be designed to support these activities? Please leave your feedback below.

Family Spaces

The Moore Square Master Plan provides multiple recreation areas designed for families. The spaces include nature play areas for kids, public restrooms, and concessions serving food and drinks. What types of programs would you like to see in the space? How should the space be designed to improve family experiences? Please leave your feedback below.

Gateway Plazas

The entry plazas serve to invite visitors into the Square, offering spaces that accommodate a high intensity of use. These areas will be bustling with activity, projecting a sense of urbanity at the park's edge. What types of functions would you like to see in gateway plazas? How should the space be designed to attract visitors? Please leave your feedback below.

Street Edge

The Square will be lined with a generous pedestrian zone made of high-quality and durable materials. This treatment will include a stone seatwall designed to protect the historic oaks, while providing a place to rest. What types of elements would you like to see in street edge? How should the space be designed to integrate the park with city? Please leave your feedback below.
