Creedmoor Road Sidewalks Project

City Council Design Presentation – May 1, 2012

Prepared by:

City of Raleigh Public Works Department

Design / Construction Division

Creedmoor Road Sidewalks Project

- Project Scope
  - Installation of 5’ sidewalks along both sides of Creedmoor Road from Glenwood Avenue to Strickland Road.
  - Completes 4 miles of sidewalk gaps along the east and west side of Creedmoor Road.
  - Provides pedestrian improvements at intersections along corridor
    - Installation or realignment of ramps for new crosswalk locations
    - Upgrades to non-ADA compliant ramps (adding truncated domes)
    - Installation of pedestrian refuges with existing and/or proposed islands at key locations
    - Setup for future pedestrian signalization modifications by the City’s Transportation Operations division.

Creedmoor Road Sidewalks Project

Project History

- Creedmoor Road Sidewalks Project is identified as a top priority sidewalk improvement project as documented in the City's Sidewalk Program.
- City council authorized staff to apply for Surface Transportation Program – Direct Allocation (STP-DA) grant funding through CAMPO during the October 19, 2010 Council meeting.
  - Grant provides 80% federal reimbursement of construction funding
  - City's 20% match funded through the City's Capital Improvement Program (CIP).
- Municipal Agreements stating the conditions for funding were presented to City Council and approved at the September 6, 2011 Council Meeting.
- Public Meeting was held on April 27, 2012 at the Laurel Hills Community Center.

Creedmoor Road Sidewalks Project

- Citizen Comment
  - A Public Meeting was held on April 27, 2012 to present design information and preliminary right-of-way and easement needs.
    - Only six people attended the public meeting.
    - The general response was favorable with little to no opposition encountered.

- Annexation Issue
  - There is a 1300 foot section of Creedmoor Road right of way (NCDOT owned) near the Jeffery Groves School Road Area of the project that is currently outside the City limits.
  - North Carolina General Statute 160A-296 provides that cities of 250,000 and above population may build sidewalks in the ETJ as well as the city limits.
  - The Statute does require a memorandum of understanding with NCDOT to acknowledge the City will assume maintenance responsibility of the sidewalk.
  - This maintenance agreement is included in the previously executed municipal agreement with NCDOT.

Signalized Intersections

- The following signalized intersections are within the project limits:
  - Plaza Place
  - Millbrook Road
  - Lynn Road
  - Sawmill Road
  - Stonehenge Drive
  - Howard Road/Bridgeport
  - Brennan Drive/Bradford Way

- Construction funding for signal/pedestrian modifications were not scoped as part of the municipal agreement for this project.

- Transportation Operations Staff plan to utilize City funding sources and coordinate with NCDOT to promptly follow the Creedmoor Road Sidewalks Project with a separately let project to accomplish the signalization modifications.

- The Lynn Road intersection has been recently modified; however the remaining intersections will need some level of modification.

Creedmoor Road Sidewalks Project

Project Schedule

- First Public Meeting – April 27, 2012
- Design Presentation Council Meeting – May 1, 2012
- Right-of-way Complete - July 2012
- 100% Complete Plans - September 2012
- Advertise Project – October 2012
- Let to Construction – December 2012
- Project Completion – August 2013

Project Funding

Federal 80% funding grant	$1,204,000
City's 20% match	$301,000
Total	$1,505,000
