Wake Bus Rapid Transit (BRT): Western Blvd. Kickoff Meeting

This meeting has been rescheduled to November 12, 2019 at 4 pm. Details to follow soon.

Bus rapid transit is a bus-based public transport system designed to improve capacity and reliability relative to a conventional bus system. Typically, a BRT system includes roadway that is dedicated to buses, and gives priority to buses at intersections where buses may interact with other traffic; alongside design features to reduce delays caused by passengers boarding or leaving buses, or purchasing fares. BRT aims to combine the capacity and speed of a metro with the flexibility, lower cost and simplicity of a bus system.
