

Comments 13 –Thomas Skolnicki tjskolni@ncsu.edu, March 8, 2012

I'm sorry that this is a day late, but I have two additional comments that I am forwarding on behalf of Charlie Leffler, our Vice Chancellor for Finance and Business. I'm hoping that you will still be able to forward these to the team for consideration.

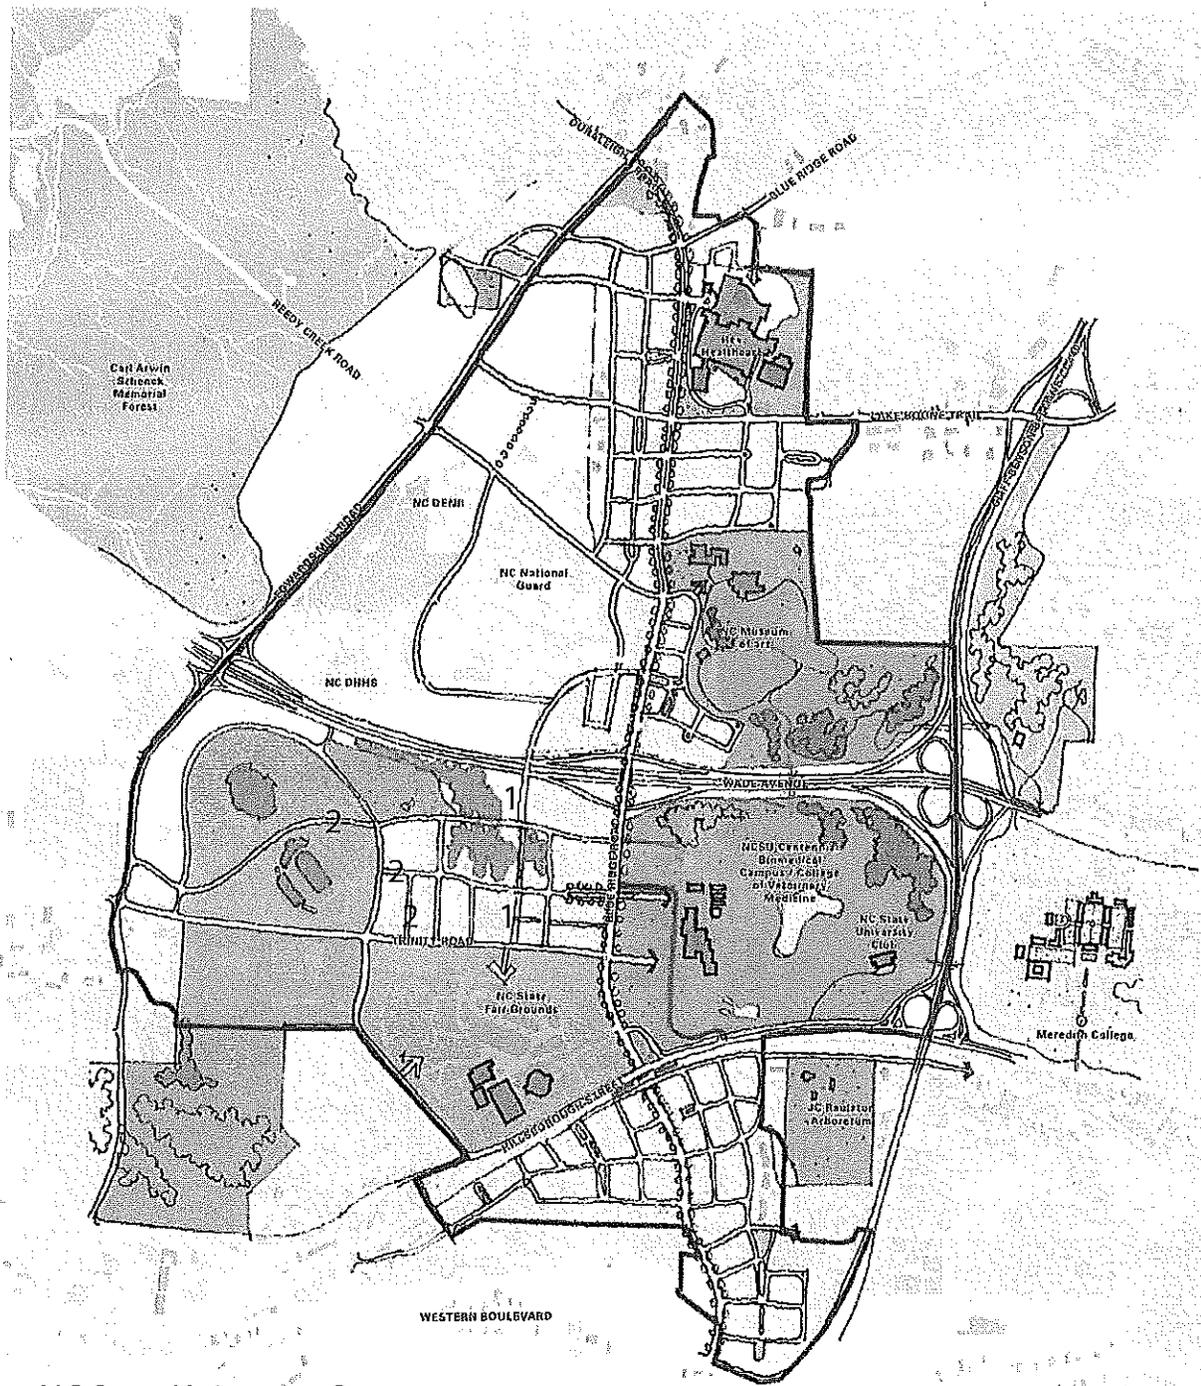

Regarding the map that was produced during the charrette, we would like some more information regarding two issues. I have keyed the areas on the attached plan according to the numbers below:

1. Please clarify where the proposed street west of Blue Ridge Road (that would bridge Wade Ave.) would be in relation to existing property lines between Wade Avenue and Trinity Road.
2. Please clarify the intent of the roads shown in the area of Carter-Finley Stadium. Are each of these drawn in new locations? If so, please clarify the intent and any impact to the parking areas.

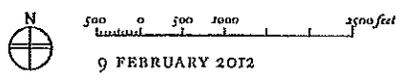

It would be much appreciated if you can consider these comments in addition to the ones I sent in February. Please let me know if it is a problem to include these comments at this point.

Thank you,

Tom
