

Blue Ridge Road

District Study

Save The Date

DESIGN OPTIONS

Governor James G. Martin Building, NC State Fairgrounds

Thursday, April 12, 2012

5:30pm Registration

6:00pm – 8:00pm Public Meeting #3

Options Presentation and Feedback Session

The upcoming design options presentation on April 12 is follow up to the highly successful Charrette week held in February. Thank you to those able to participate and contribute ideas and insights. Following are design themes that emerged as a result of our work together.

- Provide local connections to improve safety and circulation while providing a framework for future development
- Transform Blue Ridge Road's character while improving its function
- Overcome the 'gap' in transit to complete the north-south connection
- Connect existing natural resources and attractions with an improved network of sidewalks and multi-use trails
- Target uses and development patterns to reinforce the idea of distinct districts and character areas

If you are interested in the future of Blue Ridge Road, save the date, hear the design options presentation, and provide us feedback.

The City of Raleigh will provide auxiliary aids and services under the Americans with Disabilities Act for disabled persons who want to participate. Anyone that requires special services should contact City of Raleigh Public Affairs at 919-996-3100 at least 48 hours in advance.

The Blue Ridge Road District Study is being undertaken to develop a blueprint for collaborative, integrated systematic planning and development along the corridor.

The final study will include a detailed summary of all the work and findings from the process, along with detailed recommendations on coordinated land use; transportation projects; housing; open space and greenways; infrastructure planning processes across jurisdictions and within agencies; an assessment that captures the benefits of sustainable development and economic development; and zoning and comprehensive plan amendments.
