

SIR WATER RALEIGH

HELP KEEP
OUR CITY
SAFE!

A fire hydrant needs at least three feet of clearance around it at all times!

JOHNNY

The Running Toilet

IS YOUR
TOILET
RUNNING?

Make sure your toilets don't keep running after you flush— that's a lot of wasted water and can contribute to a big water bill!

NEUSIE

Keep Our
Streams
and Rivers
Clean!

Don't flush food, diapers,
baby wipes or trash down
the toilet...nor pour
grease down the drain!
